

# HD Project Logo

Our logo is a work of art by David Friedman who generously gave us permission to use it as the symbol of our mission; helping others transcend their limitations and reach their full potential.

David's work of art entitled *Transcendence has to do with growth and evolution*. Look at the smallest tree. As it grows, it transcends its previous limitations and becomes twice as large.

"This is also true of human beings. As we grow and evolve in consciousness from egocentric chaos to ethnocentric learning to world-centric awareness, we should transcend the limitations of the previous levels, but we should always include these less-inclusive states of being in the composite nature of our fully mature and integrated universal consciousness."

**David Friedman** is the creative force behind this work of art that represents what personal growth is all about: **transcending**.

**Friedman** is not only an artist but also a long time learner of **spiritual growth**. He uses his art to explain complex **universal principles**.

To the ones with inquisitive eye, Friedman's art will appear not only full of mystic forms and enchanting color but also having a plethora of **spiritual knowledge**.
