

# Community Projects

- 1) **School-based project:** This is our newest project. We are in the process of building partnerships with schools that are committed to promote positive parental involvement. We understand that positive parental involvement has been link to the reduction of disciplinary problems in school settings and the improvement of school performance by youngsters. We are also participant members of the HISD strategic partnerships network.
- 2) **Faith-based project:** we have been partnering with faith-based groups to expand our operations and to provide our highly specialized trainings in church settings. Beside our regular family oriented trainings we also have a spiritual development training with two levels: beginners and advanced.
- 3) **Community advocacy:** We support community campaigns that seek the preservation of the democratic principles and civil liberties of this great nation and the enhancement of economic democracy. To this end we support the work of other grassroots organizations and advocacy groups such as the Coalition for Human Needs, the Cover the Uninsured network, the Coalition for Human Rights and Dignity, Young Immigrants for a Better Future, and America for All.
